

# Evergreen Historic Conservation District

To ensure protection of the Evergreen Historic District, all exterior new construction, habitable additions, demolitions, and building relocations must be reviewed and approved by the Memphis Landmarks Commission (MLC) prior to the start of work.

The MLC issues Certificates of Appropriateness (COA) for work that meets the design guidelines adopted by the district. The Commission meets once a month to review and approve projects. Call (901) 576-7191 for more information.

See reverse side of this map for additional information regarding the types of projects requiring approval in Historic districts.
