RESOLUTION APPROVING THE SHELBY COUNTY CAPITAL IMPROVEMENT BUDGET FOR FISCAL YEAR 2017 AND THE CORRESPONDING FIVE YEAR CAPITAL IMPROVEMENT PLAN FOR FISCAL YEARS 2017-2021. SPONSORED BY COMMISSIONER VAN D. TURNER, JR.

---

WHEREAS, A Five Year Capital Improvement Plan for Shelby County for Fiscal Years 2017-2021, has been prepared by the Shelby County Administration which is deemed to be a working five year plan for Shelby County to project and plan for future debt service needs; and

WHEREAS, The Commission's Committee No. 1, Budget and Finance, has reviewed the Proposed Five Year Capital Improvement Plan and the related Proposed Fiscal Year 2017 Capital Improvement Budget and recommends approval and adoption of the Plan and related Budget.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF SHELBY COUNTY, TENNESSEE, That the Five Year Capital Improvement Plan for Fiscal Years 2017-2021, a copy of which is attached hereto and incorporated herein by reference as Exhibit A, is hereby approved.

BE IT FURTHER RESOLVED, That the first year of the plan as set forth in Exhibit A is hereby adopted as the Capital Improvement Budget for Shelby County and the following amounts are hereby allocated for Fiscal Year 2017:

Roads and Bridges	\$5,500,000.00
Information Technology	6,691,585.00
Buildings and Property	7,775,000.00
Community Projects and Contingency	7,375,000.00
EMCP Interest and Issuance Expense	<u>1,000,000.00</u>
Total	<u>\$28,341,585.00</u>

BE IT FURTHER RESOLVED, That the allocations for the Fiscal Year 2017 Capital Improvement Budget shall be funded as follows:

County Funding	\$17,536,585.00
Federal Funding	4,125,000.00
Transfer from Debt Service	<u>6,680,000.00</u>
Total	<u>\$28,341,585.00</u>

BE IT FURTHER RESOLVED, That in order to maintain fiscal stability, each County Agency to which Capital Improvement allocations have been made is authorized to prepare plans and specifications and to take bids for the projects identified in the Capital Improvement Program subject to the additional authorization by the Mayor and the Board of Commissioners of Shelby County, Tennessee, in order that sufficient funds will be available to pay said obligations on scheduled due dates.

BE IT FURTHER RESOLVED, That any allocations included in the Capital Improvement Budget for Fiscal Year 2017 projects must be appropriated by Resolution of the County Commission.

BE IT FURTHER RESOLVED, That all unappropriated allocations in the Fiscal Year 2016 Capital Improvement Budget not appropriated prior to the close of the fiscal year shall be cancelled and written off.

BE IT FURTHER RESOLVED, That the accounting and budget records of the Capital Improvement Plan Fund shall be maintained according to the policies

established by Resolution No.8, adopted by this Commission on June 3, 2013.

BE IT FURTHER RESOLVED, That the Administration is directed to write-off all appropriated allocations which remain following final payment, including any contract retainage and after review and consideration, any appropriated allocations from prior fiscal years that remain and no payment has been made against the original appropriation, as approved in the applicable Resolution.

BE IT FURTHER RESOLVED, That the Mayor and the Director of Administration and Finance are authorized to issue their warrant or warrants for all amounts appropriated herein, and to take proper credit in their accounting therefor.

BE IT FURTHER RESOLVED, That this Resolution shall become effective in accordance with the Shelby County Charter, Article II, 2.06(B).

## Shelby County Capital Improvement Plan Summary of Projects Allocated for 2017

### Buildings and Property Projects

#### ADA - Title 2 Compliance: Building Upgrades: \$250,000 (\$250,000/yr for subsequent years, FY18-FY21)

In a proactive effort to avoid potential litigation, SCG is systematically addressing ADA non-compliance in all SCG buildings. This is a multi-year project to upgrade existing facilities and to achieve compliance with ADA Title II building codes. The SCG building inventory will be surveyed to determine extent of need, and implementation will be prioritized accordingly.

#### 160 N. Main Roof Replacement (Vasco A. Smith): \$40,000 (FY18 - \$260,000)

The roof of the Vasco A. Smith, Jr. Administration Building is near the end of the manufacturer's recommended useful life and needs to be replaced. The existing roof was installed in 1998 with 18 years of wear. When it was installed, the roof came with a 10 year warranty, which has expired. Support Services has been patching the roof several times each year ever since.

#### 1075 Mullins Station Office Renovation (PEAB): \$160,000 (FY18 - \$2,200,000)

The Peggy Edmiston Building (PEAB) was built in 1935 and originally housed the old Shelby County Health Care Center which was closed in 2001 and subsequently converted to administrative offices. During the past 10 years, the County has invested over \$2.5 million in redeveloping the PEAB, however most of the projects addressed site and structural improvements, and mechanical systems (i.e. parking lot improvement, roofing and HVAC). This project addresses building improvements within the east-wing of the complex which houses the Office of the Shelby County Assessor and consists of redesigning public service counters, restroom renovations, replacing flooring, painting and modular workstations. Additional work includes HVAC ductwork replacement and control upgrades, additional lighting, and electrical upgrades.

#### Total Health Wellness On-Site Health Clinic: \$175,000

Buck Consultants performed a data analysis utilizing the County's claims experience from 1/13 through 9/15 to identify the feasibility and cost effectiveness of providing a worksite medical clinic for Shelby County employees. The analysis indicated a potential for a positive return on investment for a full service on-site clinic within two (2) years. Buck anticipates that in year 1 the Shelby County clinic will experience a loss of approx. \$433K due to the initial investment required including for build-out and implementation costs. The group health insurance plan could reduce this loss in year 1 by including the initial build out of the clinic as part of the Capital Improvement Budget. Clinics generally range from 200 ft<sup>2</sup> to as much as 25,000 ft<sup>2</sup>. Most are 500 to 2000 ft<sup>2</sup>. This proposal is for 1000 ft<sup>2</sup> at an estimated cost of \$175/ft<sup>2</sup> build out within the Peggy Edmiston Administration Building (PEAB) located at 1075 Mullins Station Rd.

#### 1060 Madison Renovation: \$3,200,000

The building located at 1060 Madison Ave. is the former Shelby County Forensic Center. The forensic function was relocated to the new West Tennessee Regional Forensic Center on Poplar in 2013. The building has been vacant since then, with the exception of an 9-month stint, when it was partially occupied by the Corrections Re-Entry Program. The building was originally constructed in the 1920s and an autopsy suite was added to the north side later. The combination of age and neglect over the years have resulted in the need for complete renovation. Community Services currently operates functions in leased space, and will move into 1060 Madison after renovation in order to reduce operating expenses. An A/E consultant was hired in FY16 to design the renovation of the building. This project represents implementation of design via construction. This project was originally included in the Health Department Master Plan (# 307386) but was separated in FY16.

#### Land/Mobile Radio for City/County: \$1,000,000 (FY18 - \$8,000,000; FY19 - \$12,000,000)

The current radio system is co-owned by the City of Memphis (60%) and Shelby County (40%) and reaches end of life for continued support in 2017. The systems are currently housed on 9 radio towers providing county-wide coverage for approximately 16,000 local government and public safety radios. The FCC mandates that our system be P-25 compliant by the year 2017 and our current system only partially complies; the only reusable infrastructure will be the physical tower sites. All vehicle and hand-held radios will have to be replaced as well as software and other hardware components. This project outlines only our portion of the project expense.

#### Jail Roof Replacement (A&E): \$25,000 (FY18 - \$275,000)

The roof for the old Jail has to be patched and/or repaired numerous times each year due to exposure to extreme weather conditions. The warranty for this roof is near its expiration date.

## Shelby County Capital Improvement Plan Summary of Projects Allocated for 2017

### **Radio Shop Expansion: \$275,000**

This project provides for the redesign and expansion of an existing structure located at 11670 Memphis-Arlington Road, Building B. The construction will increase the square footage of existing storage bay demolition of the north wall and expand the building into an area currently used as a small fenced lot. The interior will be renovated by demolition of existing walls that separate bay space and opening the footprint to allow a large open area for radio technicians to install, repair and train. The work will also add a small restroom and will be upfitted for compatibility with NextGen radio systems repairs and services.

### **Juvenile Court Roof Replacement: \$450,000**

As evidenced by several years of unsuccessful roof repair projects, the building needs installation of a replacement roof. Major leaks in a number of locations throughout the building pose safety risk for clients and staff, and could result in damage to interior surfaces, materials, furnishings and equipment.

### **814 Jefferson Renovation: \$1,200,000 (FY19 - \$19,900,000)**

The Shelby County Health Department facility is located at 814 Jefferson. The facility is comprised of three buildings: the original two-story building constructed in the 1950s, the six-story addition constructed in 1971, and the auditorium also constructed in 1971. Due to the age of the buildings, major expenditures are necessary to correct and/or repair building deficiencies, infrastructure problems and code compliance issues. Corrective action is required to address the following issues, as a minimum: brick façade repairs, asbestos abatement, roof replacement, HVAC replacement, electrical system grounding, ADA Title 2 compliance, and interior refurbishment. Preliminary cost estimates total several million dollars. In FY2013, Allen & Hoshall was selected to conduct a comprehensive analysis of Health Department facility needs and determine the feasibility of significant investment in the current facility or alternative locations. Pending the recommendations from consultants in FY2016 regarding renovation or alternate locations, design work and planning will commence in FY17.

### **Health Admin Relocation: \$1,000,000**

Relocation of some Health Department employees to 160 N. Main will be necessary to complete renovations at the current 814 Jefferson building. These funds will provide for the necessary office construction or cubicle partitions and furniture.

## **Information Technology Projects**

### **Out of Region Disaster Recovery Warm Site: \$500,000**

The County currently performs data backup operations for computer systems in each of its two datacenters. Copies of the entire backup data are stored at both datacenters to facilitate off-site recovery of County data, should disaster strike one of the datacenters. The County's current data recovery preparations are insufficient for recovery of computer services in the event of a massive earthquake, or other regional disaster. The warm recovery site for these critical County systems will be a disaster resistant facility, located more than 100 miles away from Shelby County, and be powered by an electrical power grid different from the County's TVA supplied grid. The site will receive daily updates of the County's backup data, and have sufficient available, Internet accessible computer server resources for hosting the critical County systems when needed.

### **ESM Voter Registration System Replacement: \$1,000,000**

The Shelby County Election Commission's voter registration system software is Election System Management (ESM). ESM is one of a five part election delivery system infrastructure. The ESM voter registration system is a critical system that is operating without vendor support or maintenance and therefore presents a critical risk with exceptionally high consequence. This also presents security risks. The main objective of this project is risk mitigation. While ESM is generically referred to as the 'voter registration system' as it manages the Shelby County voter registration database, it serves numerous other functions such as voter history update, ballot build, voting, redistricting, reporting, etc. Replacement for ESM would require one or more systems that replicates all of the current ESM functionality.

### **Countywide Planimetric Digital Data: \$1,100,000**

Shelby County has not procured a County-wide set of accurately mapped features since the never-completed CAMAS project was dropped in 1978. It would prove beneficial to acquire a comprehensive set of digital features derived from highly accurate aerial imagery that can be shared among all the local government agencies using a single source technical vendor to ensure a commonality of feature attributes, naming conventions, data descriptions, etc. This comprehensive data set would form the nucleus of a publicly-accessible base map for all or most of the websites within the County who publish geospatial information.

### **Sheriff - Body/Vehicle Camera and Vehicle Locators: \$2,500,000**

This project is to develop, install and provide maintenance for a single-source solution that provides an integrated body-worn camera, vehicle camera and automated vehicle locator system that will be used by our officers in the field and interact with our CAD system.

## Shelby County Capital Improvement Plan Summary of Projects Allocated for 2017

### **Single Sign On Management: \$350,000**

The need for increased security has resulted in the use of multiple User ID and Passwords to sign on to many applications. The rules for creating User Id and Password is different from one software application to another has created the situation where a user has to remember multiple User Ids and the corresponding passwords. We are seeking to simplify the sign on process by employing Single Sign-on Management Software.

### **Juvenile Court - Electronic Medical Records System: \$350,000**

Under the supervision of the Department of Justice, Juvenile Court Detention Services (JCDS) contracts for detainee medical services with Correct Care Solutions (CCS). Part of the medical service delivery system includes the implementation of an Electronic Medical Record (EMR) system, NextGen, that is currently being used for the Jail, Jail East and Shelby County Division of Corrections. This project will include the purchase of the NextGen licenses, software implementation, testing, training, and the placing of the EMR into service. Furthermore, an audit system will be implemented, as well as a historical conversion of current health records, and patient synch software.

### **Lodox Body Imaging System: \$441,585**

There is currently only one functioning x-ray unit at the Forensics Center. This unit is very old and our ability to function will be greatly impaired should this unit become disabled. The Lodox Stats is technology that obtains high quality full-body radiographic images in a very short period of time. It has been proven to complete 7 full-body scans in the time to do 1 using the traditional technology. It is particularly helpful in foreign body detection in gunshot cases, and fracture detection in abuse/trauma cases with children and elder adults. Although the Lodox system quoted is self contained, it is recommended that an imaging storing system PACS also accompany the Lodox. Currently the WTRFC has no imaging server and stored images are only backed up if they are placed on the Forensic Center DIDI System. The Lodox System and the PACS storage system will revolutionize how the forensic center does business and will place them on a path to excellence.

### **Enhanced Data Encryption: \$200,000**

The purpose of this CIP project is to provide for the encryption of sensitive data including Protected Health Information (PHI) and Card Holder Data (CHD) which is stored and transmitted on, or from, Shelby County Government systems. The ideal solutions will allow for the centralized management of an encryption solution for storage (on servers, workstations, laptops, and removable drives), SCG County email (allowing the sending and receiving of sensitive information), and County-issued mobile smart phone devices. The FY15 HIPAA and HITECH Act risk assessment, covering Health Services, Corrections, the Aging Commission, and ITS identified lack of encryption solutions as a significant risk and recommends the implementation of improved encryption to reduce the risk of data breach under HIPAA requirement §164.312(a)(2)(iv) for all areas mentioned.

### **Security Incident & Event Management: \$250,000**

A Security Incident and Event Management system for Shelby County Government (SCG) provided resources will provide for much better visibility, live alerting, and response while also greatly enhancing data mining capabilities for response to data breaches. This will allow for more efficient identification of and response to threats affecting SCG ITS provided and maintained systems and users. The current solution scope includes the network ingress and egress points, primary routers and firewalls, and the servers and workstations which are current in scope for the County's identified departments handling Protected Health Information (PHI) and Card Holder Data (CHD). The ideal solution will allow for the centralized management of logs from network, server, and workstation devices and easy scaling to new devices as they are determined to transmit, process, or store sensitive data.

## **Roads and Bridges Projects**

### **Walnut Grove: \$250,000 - County Share (FY18 - \$250,000; FY20 - \$2,862,500 - County Share)**

This project improves a 1.0 mile of segment of Walnut Grove Road by widening the existing roadway from two to four lanes, correcting geometry, adding bicycle and pedestrian facilities for improved mobility and widening the bridge over Grays Creek. This project includes improvements at the intersection of Houston Levee Road and Walnut Grove. This route provides one of only two east-west crossings of Grays Creek. \$1 million has been allocated in FY17 for preliminary engineering and right of way phase for design and \$1 million in FY18 for the final design and ROW purchase.

### **Houston Levee: \$375,000 - County Share (FY21 - \$3,600,000 - County Share)**

This project improves Houston Levee Road by widening the segment from Walnut Grove to the Wolf River Bridge from two to four lanes. The roadway segment will include a median with pedestrian and bicycle facilities and landscaping. Length (miles) 1.67. This project improves emergency vehicle access along a major north-south corridor in Shelby County.

## Shelby County Capital Improvement Plan Summary of Projects Allocated for 2017

### **Macon Road: \$375,000 - County Share (FY19 - \$450,000; FY21 - \$4,337,500 - County Share)**

This project provides 1.73 miles of roadway improvements by widening of Macon Road from two to four lanes from Berryhill Road to Houston Levee Road, addition of pedestrian and bicycle facilities, and construction of a new bridge over Gray's Creek. Intersection improvements will be made at Berryhill Road, Lenow Road, Rebel Drive, Big Orange, Far Road, and Houston Levee Road.

### **Hacks Cross: \$375,000 - County Share (FY18 - \$250,000; FY19 - \$4,500,000 - County Share)**

This project improves a 1.8-mile segment of Hacks Cross Road from Shelby Drive to Stateline Road by widening the roadway from two to seven lanes. The improvements will include pedestrian and bicycle facilities and landscaping. This corridor is a major north-south connector that is highly congested with traffic traveling through Unincorporated Shelby County, the City of Memphis and north Mississippi. Hacks Cross Road has an interchange at State Route 385 which is a significant traffic generator.

### **Community Projects**

#### **FedEx Forum Maintenance: \$2,000,000 (\$3,000,000/yr for subsequent years, FY18-FY21)**

The FedEx Forum is now in its 11th year of operation and the capital needs are increasing. The agreements with the Memphis Grizzlies provide that they will manage the FedEx Forum and the City of Memphis and Shelby County are responsible for the capital needs of the facility to maintain it as a first class NBA Arena. The original financing of the facility included a \$10 million Capital Reserve Fund. This fund has been used judiciously during the first eleven years but is expected to be exhausted within the next two years. The Memphis Grizzlies have had a facility assessment prepared that indicates substantial capital needs going forward as the building ages. Over the next few months, we will be working closely with the Memphis Grizzlies to assess projected needs.

#### **Veteran's Home: \$2,000,000**

Shelby County will contribute a \$2 million share toward construction of a \$30.1 million, 140 bed facility that would care for veterans who reside in West Tennessee. Sixty-five percent (65%) of the cost will be funded by the Veteran's Administration and thirty-five percent (35%) will be funded by the State of Tennessee, Private Donations and Shelby County. Forty (40) acres will be required for the facility.

#### **HVAC Retrofit & Replacement for Agricenter: \$2,250,000**

The project is to replace 31 Rooftop units which were installed in 1985 and make modifications to the installation to be code compliant with new mechanical and plumbing codes. The new units will be high efficiency units with night setback controls and proper ventilation rates to meet ASHRAE standards. The existing air distribution system in the facility will be modified to maintain space setpoints in the dome area. The existing gas piping on the roof will be braced to meet the seismic requirements of the Code. The existing condensate drains, which presently drain directly on the roof will be modified to drain the condensate into the sewer system per code. A new DDC energy management control system will be install to monitor and schedule the HVAC system. The new system with the high efficiency units and control system will reduce the energy use by approximately \$30,000 per year.

#### **Shelby Farms Conservancy Storage Building: \$125,000 (FY18 - \$1,300,000)**

The Shelby Farms Park Conservancy currently utilizes an old barn on Haley Road to store maintenance vehicles and equipment and displays from "Starry Nights" and other park attractions. The barn is a wooden structure that is over 75 years old. The barn is in extreme disrepair: the roof has failed, the walls have warped beyond repair; most windows are broken. The building has no insulation and is unsafe for the employees. This project involves demolition of the existing barn, architectural/engineering consultant services for design of a new structure at the current location, and construction of a new insulated metal building to accommodate the maintenance and storage needs of the Conservancy. The warehouse is approximately 6,800 ft. with cost per square foot is approximately \$190/ft due to a building height of 20 feet to accommodate the "Starry Nights" exhibits, jib crane, equipment lift, multi-process welder, 1/3 of building is fully conditioned with ADA compliant restrooms for maintenance staff. Plus, the total cost includes new paving around the perimeter of the building.

**Contingency: \$1,000,000** - Included for all years.
