

**MEMPHIS AND SHELBY COUNTY OFFICE OF PLANNING AND
DEVELOPMENT
STAFF REPORT #3**

CASE NUMBER: SAC 13-616 **LUCB Meeting:** January 9, 2014

DEVELOPMENT NAME: Edison Road Closure

LOCATION: Edison Road fronting the Smucker's facility

COUNCIL DISTRICT: 3

SUPER DISTRICT: 9

OWNER OF RECORD/APPLICANT: Pickering Firm, Inc

REPRESENTATIVE: Brenda Solomito

REQUEST: To Close and Vacate Alley Street Right-Of-Way in accordance to the UDC Section 5.2.18

AREA: 1.74

EXISTING LAND USE & ZONING: EMP

**OFFICE OF PLANNING AND DEVELOPMENT
RECOMMENDATION** Approval with Conditions

CONCLUSIONS:

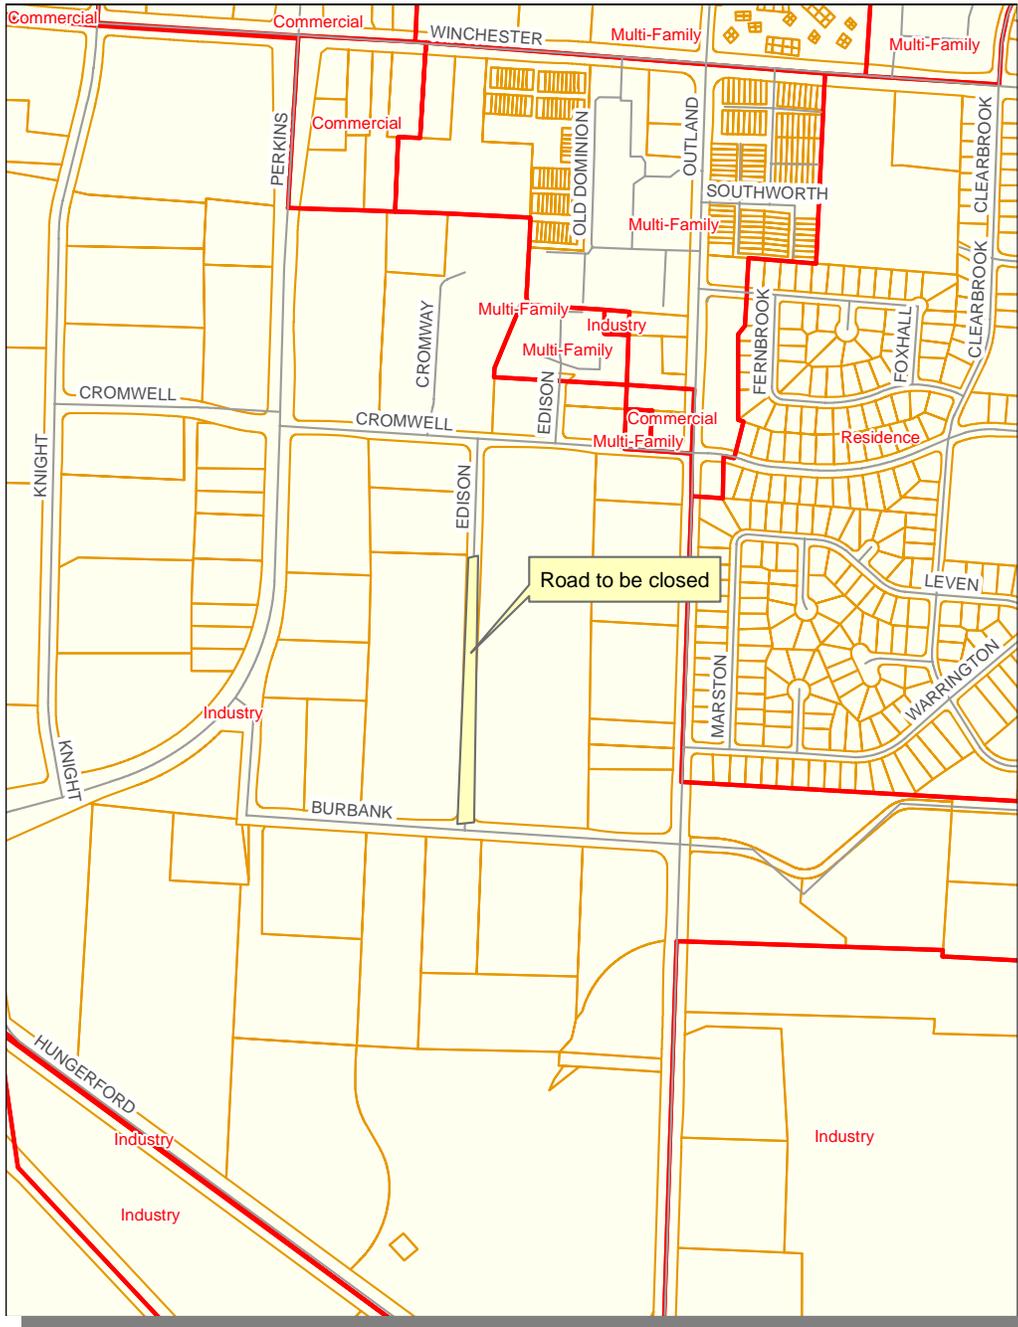

The Smucker's facility owns the majority of the property fronting Edison Road to its east and west; Smucker's would like to consolidate this property in order to gate the street and provide additional security and better traffic flow to the surrounding businesses. This street traverses north-south from Burbank Road and is approximately 1.74 acres.

The property will not likely be useful as a public right-of-way and would be most logically suitable for ingress/egress for the Smucker's facility and remove roadway that serves only one property owner from City responsibility.

Staff Planner: Calvin Abram

STAFF ANALYSIS:

This application is a request for a street closure at the intersection of Burbank and Edison extending north toward Cromwell. Edison Road is the egress and ingress for the private businesses fronting the street; therefore, a turn-a-round shall be provided by the applicant.

The EMP District is intended to accommodate office, light manufacturing, research and development, warehousing, wholesale, processing and commercial uses in order to promote economic viability, encourage employment growth, and limit the encroachment of non-industrial development within established industrial areas. Development should be operated in a relatively clean and quiet, manner, and should not be obnoxious to nearby residential or commercial uses.

Purpose of Street Closing:

The purpose of this street closure is to provide “better security” to the site.

The closing of Edison shall allow for the continued ingress/egress to the businesses along the northern portion of Edison Road as one front along Cromwell Road and a small segment along Edison Road. Smucker’s will improve Edison Road by constructing a turn-a-round, which will continue to afford the existing businesses and public to access Edison Road and make full turning movements in this location.

The property will not likely be useful as a public right-of-way and would be most logically suitable for ingress/egress to the Smucker’s facility.

RECOMMENDATION: Approval with Conditions

Conditions:

1. The subject site shall comply with the closure plat as submitted.

2. The applicant shall provide a landscape plan to the site. Landscaping shall be placed along the property fronting Burbank and Cromwell where applicable.

3. The applicant shall submit a closure plat identifying all conditions to OPD within 30 days of application approval by the City Council and call-out dimensions of gates, guardhouses and queuing space along Edison Road.

4. Standard Subdivision Contract as required in Section 5.5.5 of the Unified Development Code.

5. Dedicate and construct an industrial standard cul-de-sac at the end of the public portion of Edison Road (75' radius) in accordance the requirements of the Unified Development Code.
6. The Developer shall be responsible for the repair and/or replacement of all existing curb and gutter along the frontage of this site as necessary.
7. All existing sidewalks and curb openings along the frontage of this site shall be inspected for ADA compliance. The developer shall be responsible for any reconstruction or repair necessary to meet City standards,
8. Provide easements for existing sanitary sewers, drainage facilities and other utilities or relocate at developer's expense.
9. The applicant shall provide for the construction of curb, gutter and sidewalk across the closure as required by the City Engineer. If the City Engineer approves access, the applicant shall construct a City Standard curb cut across the closure, all to the satisfaction of the City Engineer, and at the applicant's expense. The applicant shall enter into a Standard Improvement Contract or obtain a curb cut permit from the City Engineer to cover the above required construction work.
10. The applicant shall comply with all conditions of the closure within three years of the conditional approval of the closure by the City Council.
11. Adequate queuing spaces in accordance with the current ordinance shall be provided between the street right-of-way line and any proposed gate/guardhouse/card reader.
12. Adequate maneuvering room shall be provided between the right-of-way and the gate/guardhouse/card reader for vehicles to exit by forward motion.
13. The width of all existing off-street sewer easements shall be widened to meet current city standards.
14. Required landscaping shall not be placed on sewer or drainage easements. Standard Subdivision Contract as required in Section 5.5.5 of the UDC
15. Dedicate and construct an industrial standard cul-de-sac at the end of the public portion of Edison Road (75' radius) in accordance the requirements of the UDC.
16. The Developer shall be responsible for the repair and/or replacement of all existing curb and gutter along the frontage of this site as necessary.
17. All existing sidewalks and curb openings along the frontage of this site shall be inspected for ADA compliance. The developer shall be responsible for any reconstruction or repair necessary to meet City standards,

18. The applicant shall comply with all conditions of the closure within three years of the conditional approval of the closure by the City Council.
19. Adequate queuing spaces in accordance with the current ordinance shall be provided between the street right-of-way line and any proposed gate/guardhouse/card reader.
