

There's a new process for distributing food commodities throughout the area.

As such, there will no longer be schedules sent out by the food bank.

All USAD products are now being distributed through the food bank's network of food pantries.

Check the food bank website, www.midsouthfoodbank.org and enter your ZIPCODE in the box on the home page that says *Find Assistance* to see a list of food pantries in your neighborhood.

That link will also give you a phone number to find out when the food will be distributed and whether a MIFA voucher is needed.

You can also call the Mid-South Food Bank at (901) 527-0841 and staff will be glad to help you.
