

LEA'S WOODS HISTORIC CONSERVATION DISTRICT

To ensure preservation of the Lea's Wood Historic Conservation District, all exterior new construction, habitable additions, demolition, and relocation must be reviewed and approved by the Memphis Landmarks Commission (MLC).

The MLC issues Certificates of Appropriateness (COA) for work that meets the design guidelines adopted for the district. The Commission meets once a month to review and approve projects. Call 576-7191 for COA application information. See reverse side for work that requires MLC approval in the historic conservation district.
