

# Memphis and Shelby County Office of Sustainability

## Sustainability Advisory Committee

The Sustainability Advisory Committee, appointed by Mayor Mark H. Luttrell, Jr., held their first meeting on September 21, 2011. Their focus is to support and assist the work of the Office of Sustainability. The members include appointees from each municipality in Shelby County, non-profit leaders, sustainability experts, university researchers, and private citizens who reflect the diversity within our community.

The primary responsibility of the Committee is to monitor the progress of the Sustainable Shelby Implementation Plan, provide advice and support in program implementation and policy setting for the Office of Sustainability, and to hold periodic public meetings. They will meet in working groups to focus on projects related to energy, recycling, growth, and engagement.
