

News Release

Shelby County Government. Emergency Management & Homeland Security Agency
Director Brenda Jones

**For Immediate Release
February 4, 2022**

Winter Storm Impacts

Shelby County has been significantly impacted by the ice storm that began on Thursday, February 3, 2022. At the height of the storm, there were over one hundred seventy-five calls for downed power lines and tree limbs with over 30% of Shelby County's population without power.

Multiple crews are working around the clock to remove debris such as fallen limbs from roadways and restore power to Shelby County citizens.

"The Emergency Operations Center is staffed to coordinate the emergency response to the ice storm.," added Director Brenda Jones.

If you have damage to your property, please contact the Shelby County Emergency Management & Homeland Security Agency at 901-222-6750 to report that damage. Damage assessments will begin Monday, February 7, 2022.
