**MONITORED OZONE EXCEEDANCE**  
**“CODE ORANGE OZONE ADVISORY”**  
**“UNHEALTHY FOR SENSITIVE GROUPS”**  
**Thursday, June 28, 2012**

For Immediate Release as of 3:00 PM:

Thursday, June 28, 2012

Memphis, TN. –In cooperation with the Arkansas Department of Environmental Quality (ADEQ); the Arkansas Department of Health (ADH); and the Mississippi Department of Environmental Quality (MDEQ), the Shelby County Health Department has issued a **“CODE ORANGE” OZONE ADVISORY**, due to a monitored exceedance of the 8-hour National Ambient Air Quality Standard (NAAQS) for ozone **for the Memphis Metropolitan Area**. The Memphis Metropolitan Area includes Shelby County, Tennessee, Crittenden County, Arkansas, and DeSoto County, Mississippi. The afternoon levels of ozone exceeded the eight-hour NAAQS at several monitors around the Memphis metropolitan area. Under existing Air Quality Index guidelines, current air quality throughout the Memphis Metropolitan Area has become **“Unhealthy For Sensitive Groups”** and is expected to remain so until after sunset this evening. *Pollution emissions, a stagnant atmosphere, clear skies, and high temperatures* are the primary factors responsible for this afternoon’s poor air quality. Since Code Orange was forecasted today, **MATA bus and trolley fares ARE discounted to 25-cents today.**

<p><b>Health Precautions:</b></p> <ul style="list-style-type: none"> <li>• <b>For Active Children and Adults</b></li> <li>• <b>For Persons With Respiratory Difficulties</b></li> <li>• Limit prolonged outdoor activities during afternoon hours</li> <li>• High ozone levels can cause nose, eye, throat, and lung irritation</li> <li>• High ozone levels can aggravate existing conditions and lead to increased potential for illness in this sensitive group</li> </ul>	<p style="text-align: center;"><b>OZONE REDUCTION TIPS RECOMMENDED DURING “CODE ORANGE OZONE ADVISORIES”</b></p> <ul style="list-style-type: none"> <li>• Refuel cars and lawnmowers after 7:00 pm, avoid spills and do not “top off” tanks</li> <li>• Carpool or mass transit</li> <li>• Combine errands instead of many separate trips</li> <li>• Drive less, especially during peak hours or hot days</li> </ul>
